Trees For Tomorrow
Environmental Education Center®

EMAIL OR LETTER TEMPLATE *For Returning Schools*

SUBJECT: *We'd Love to Welcome You Back to Trees For Tomorrow*

Dear [Educator's Name / School Administrator],

We hope this message finds you well. As a school that once made the journey to **Trees For Tomorrow**, you already understand the impact of immersive environmental education — the kind that sticks with students long after they return to the classroom.

We know that priorities shift, budgets tighten, and schedules change. But we also know that the **power of being in nature never fades**. Trees For Tomorrow offers more than just a field trip — it's a chance for students to build lifelong connections to the outdoors, to science, and to each other.

Why consider coming back?

- **Hands-on learning:** Our field-based programs align with science standards and help students apply classroom concepts in real-world settings.
- **Social-emotional benefits:** Nature-based education has been shown to improve focus, reduce stress, and support mental health.
- **Community and character:** TFT trips strengthen student bonds, encourage teamwork, and foster resilience and confidence.
- **A trusted partner:** We've been welcoming students for decades — and we're always evolving to meet schools' changing needs with flexible programming and support.

SOLE: School Outdoor Learning Experiences for K–12

Whether your group came with elementary students, middle schoolers, or high schoolers, our SOLE programs continue to offer age-appropriate, high-impact experiences. We'd love to tailor a program that fits your school's goals and interests.

If you've been thinking about bringing students back — or even if you haven't — we'd be honored to talk with you about what's new at Trees For Tomorrow and how we can make a return visit both meaningful and manageable.

Let's reconnect and get your students back outside where learning thrives.

Warm regards,

[Ambassador Name]
