2025 SPONSORSHIP OPPORTUNITIES

ADOPT-A-CLASSROOM SPONSORSHIP

Where using your outside voice is encouraged, and the outdoors is your classroom!

Dear Friend of Trees For Tomorrow

I am writing to share an opportunity that not only impacts the future of your community but also the future of our environment.

For over 80 years, Trees For Tomorrow has been a place where young minds are inspired by the natural world, where they learn through exploration and begin to see themselves as stewards of the environment. These lessons are invaluable, and they are most impactful when students can experience them firsthand, away from the confines of a classroom, immersed in nature.

We are reaching out to you with an invitation to sponsor a local or regional school's day or multi-day trip to Trees For Tomorrow. This sponsorship allows students from your own community—schools near your home or organization—to participate in a transformative educational experience.

I would be delighted to discuss this opportunity with you in more detail and explore how we can work together to make a lasting impact on your community and the environment. Please feel free to contact me directly at (715) 479-6456 or ctodea@treesfortomorrow.com.

Thank you for considering this important partnership. Together, we can inspire change, protect our natural world, and ensure a brighter future for the next generation.

Sincerely,

Cheryl Todea

Cheryl Todea, TFT Alumna and Executive Director

THE BENEFITS OF A SCHOOL OUTDOOR LEARNING EXPERIENCE (SOLE) FOR K12 AT TREES FOR TOMORROW ARE PROFOUND

For the Students: This is more than just a “field trip,” it’s an opportunity for students to engage in hands-on learning by professional environmental educators that brings the science of nature to life. They will explore local ecosystems, understand the impact of human actions on the environment, and develop a sense of responsibility for managing out natural resources. These experiences cultivate curiosity, build leadership skills, and encourage a lifelong commitment to sustainability.

For example: Give 20 local 5th graders the unforgettable experience of three days at Trees For Tomorrow, where they’ll immerse themselves in hands-on SOLE programming, enjoy delicious meals, and stay in comfortable lodging—all for just \$9,000. Your support will inspire a lifelong connection to nature and environmental stewardship!

For the Community: You’re investing directly in the future of your community. Students are our future leaders, educators, and innovators. The lessons they learn will ripple into the community, fostering a culture of stewardship that benefits us all.

For the Environment: The environmental challenges we face are significant, but they are not insurmountable. By supporting environmental education, you are helping to equip the next generation with the knowledge and passion needed to tackle these challenges head-on.

BENEFITS TO YOU:

Recognition: You or your organization will be recognized in our promotional materials, on-site signage, and across our social media platforms, highlighting your commitment to education and the environment.

Community Engagement: This is a tangible way to give back to your own community, supporting local schools and helping to shape the future of the region.

Employee Involvement: You or your employees can get involved too, either through volunteering opportunities or by participating in the off-site trip itself, strengthening your team’s connection to the community.
